

# Behavioral Healthcare Management

Magellan's Behavioral Healthcare Management Solution combines advanced clinical approaches and innovative technology to improve member outcomes. Our 50-year experience in behavioral health has resulted in a unique approach that has reduced costs for hundreds of health plans, up to \$41 million over four years.<sup>1</sup>

## The Magellan difference

### Identification

- **Analytics** help identify undertreated individuals early and point to interventions.
- **Utilization management**, with a range of automated and expert reviews, helps ensure the right treatment is delivered at the right time.

### Intervention

- **Behavioral health screenings** help identify potential behavioral health issues, including substance use, and direct members to treatment
- **Case management** helps ensure care is aligned and integrated within medical delivery systems.
- **Peer support** connects members with community and social support.
- **Innovative clinical programs** are used to manage high-cost, complex populations.

### Technology

- Digital tools help identify, engage, educate and increase access to behavioral healthcare.
- Behavioral, medical and pharmacy costs are analyzed continuously to customize care pathways.<sup>2</sup>

## Many need help. Most aren't getting it. Turn to Magellan.

We can help your health plan address the staggering statistics:

- In the U.S., 26% of individuals 18 and older suffer from a diagnosable mental disorder.<sup>3</sup>
- In countries like the U.S., with well-organized healthcare systems, between 44% and 70% of patients with mental disorders do not receive treatment.<sup>4</sup>
- In 2017, members with comorbid physical and mental health conditions made up 34% of total health plan expenditures (Medicaid, Medicare and commercial).<sup>5</sup>
- Effective integration of behavioral and physical healthcare for comorbid patients can generate up to 25–35% savings in medical costs.<sup>6</sup>

Please contact Justin Beck today at 314-387-4835 or [JCBeck@MagellanHealth.com](mailto:JCBeck@MagellanHealth.com) to discuss how we can help you improve identification, engagement, cost savings and member quality of life.
