Where we've been, where we're going
A message from Thomas Lane, NCPS, CRPS, senior director, community and recovery supports

Magellan has been creating and sharing the eMpowered for Wellness e-newsletter for more than six years, starting with our first issue in the fall of 2012. During those six years, we have covered a wide range of topics with a strong focus on whole health, recovery, resiliency, and social inclusion. Early on, we knew we wanted this to be a resource for the ‘peer’ workforce – which has now come to include transition-age youth specialists, parent and family support partners and others.

We have continued to evolve along with the peer support movement, and we will continue to provide eMpowered for Wellness and other resources at no cost to all who are interested.

“They always say time changes things, but you actually have to change them yourself.” - Andy Warhol

No-cost, on-demand learning opportunities
Check out our new, on-demand webinars highlighting how music can contribute to improved health outcomes. Read more
