

Digital emotional wellbeing

Family problems. Personal stress. Physical ailments. National and international crises. Life can take a toll on member wellbeing. How can you help? With Magellan Healthcare's digital emotional wellbeing program, powered by NeuroFlow.

Our program helps individuals take control of their whole health—life, mind and body—through relaxation and mindfulness techniques, strength-building activities, behavior tracking, and wellbeing assessments.

With Magellan's digital cognitive behavioral therapy modules embedded in the experience, they can access evidence-based programs at any time, wherever they are.

- ComfortAble™—for chronic pain
- FearFighter®—for anxiety, panic & phobia
- MoodCalmer—for depression
- **RESTORE**®—for insomnia & other sleep troubles
- SHADE—for substance use disorder
- ThinkHeroSM—for anxiety-related symptoms (ages 6–12)
- ThinkWarriorSM—for anxiety-related symptoms (ages 13–17)

Strong member engagement

80% of registered users complete an initial assessment, and 61% remain engaged after the first month.

- ✓ NeuroFlow technology keeps your members engaged in clinically validated activities through proactive nudges, gamification and reward badges.
- ✓ Regular, automated check-ins measure user progress, and natural language processing flags concerning text-based entries.
- ✓ Flagged users are directed to Magellan's virtual and in-person counselors for more personalized attention.
- ✓ Enterprise-level participation and progress reporting shows the engagement and overall wellbeing trends for your organization while keeping individual details confidential.

This short 15-minute call really encouraged me and helped me to think I can keep going, and I wish people in our world did this with each other more.

– Digital Emotional Wellbeing Member

Results that make a difference

Activities address topics such as goal-setting, loneliness, physical activity and stress. The program tools and DCBTs have helped individuals with ADHD, substance use issues, PTSD, depression, anxiety and other conditions, with impressive outcomes:

41%
reduction in
GAD-7 scores¹

24%
reduction in
PHQ-9 scores¹

72%
reduction in
substance use²

80%
of users
improved sleep³

If you're looking for a way to positively impact your members, look no further. Magellan's digital emotional wellbeing program is easy to launch, promote and monitor, and we're always adding new content and tools to keep your members coming back for more.
