

Magellan Healthcare Children's Services

Partnering with health plans, providers, members, families, and advocacy organizations to transform behavioral health systems, we support members in their recovery journey, helping them build resilience and achieve healthier futures.

Magellan Healthcare is committed to helping children with behavioral health (BH) needs improve their overall functioning and transition successfully and confidently into adulthood.

As Texas health plans prepare for the anticipated release of the STAR Kids Request for Proposal, Magellan Healthcare is uniquely positioned to provide insights from our successful state Medicaid children's BH programs across the country. Our diverse models of care are designed to align with managed care organization structures and deliver outcomes that support the achievement of state program goals.

Our proven BH care models help children, youth, and young adults live safely in their homes and communities. As a national specialty behavioral health company, we offer a comprehensive range of BH services tailored to their unique needs, including:

- Comprehensive preventive, treatment and integrative care services
- Complex care coordination for those who are in or at risk of out-of-home placement
- Innovative system of care to help states better serve children, youth, and young adults with multi-system involvement

Exceeding national
standards and
expectations

+

**Youth- and family-
voice centered**

Prioritizing
individual needs
and empowerment

Partnering to solve complex behavioral health challenges

Through statewide, regional, and specialty carve-out programs, we provide a full range of services, integrating with our partners' physical health programs to facilitate whole-person care.

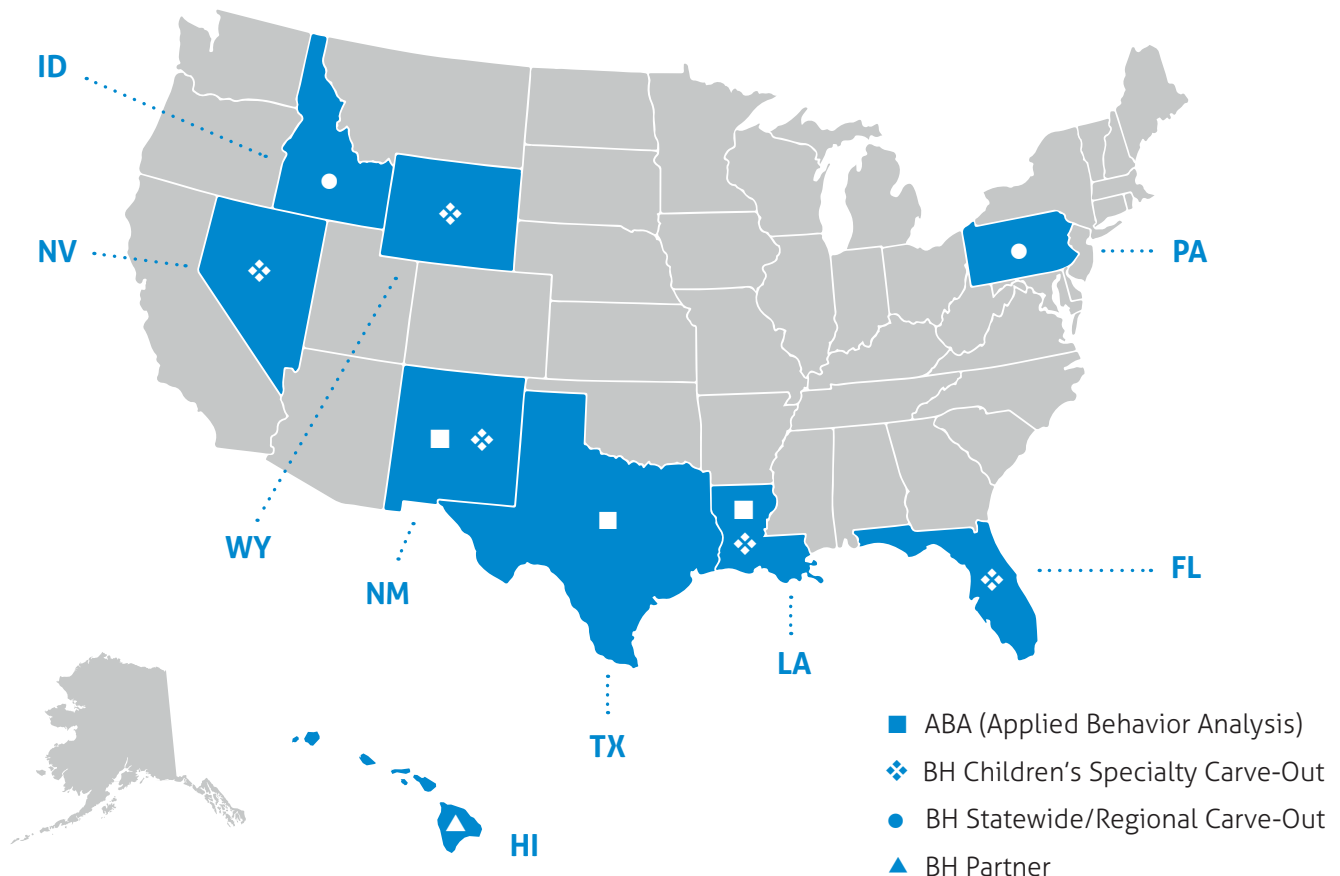

Our specialized autism program for Applied Behavior Analysis (ABA) helps families access the right support and children to reach their full potential. By combining evidence-based care with personalized support, we empower youth and families to thrive. Across the nation, we're helping states and health plans build stronger behavioral health systems and improve outcomes for youth and families.

(Accredited in NM, TX, LA and PA)

(Accredited in PA)

Drawing on our nationwide success in children's behavioral health programs, we offer Texas health plans a strategic roadmap and proven framework to excel in STAR Kids programs.

How we're helping the youth and families we serve

Whole-Health Model of Care

- Clinical interventions driving success
- Evidence-based and outcomes-focused
- Individualized care plans
- Family voice and choice
- Community-based supports and resources

Member-Centered Care Team

- Multi-disciplinary clinical team
- Expert medical consultation
- Peer and family support through staff with lived experience
- Transition specialists facilitating services and supports for those transitioning between levels of care

Programs for Specific Populations

- Magellan Autism Connections®
- Early childhood mental health consultation
- High Fidelity Wraparound
- Transition to Independence
- Youth Peer Support

Driving positive outcomes for youth and families

- **Over 93% of youth enrolled in our Coordinated System of Care (CSoC) avoid inpatient hospital stays**—including high-risk, SED populations
- **65% savings in care** for children engaged with the High Fidelity Wraparound program vs. inpatient care
- **33% reduction in displacement from home** for youth in our evidence-based Multi-Systemic Therapy (MST) program
- **66% improvement in school functioning** among youth in our CSoC program
- **42% decrease in inpatient admissions** using an evidence-supported Transition to Independence (TIP) model
- **84% of caregivers in our CSoC program are more confident** about their ability to care for their child at home
- **Over 90% of youth discharged** from High Fidelity Wraparound to home and community-based settings
- **24% reduction in residential treatment** facility utilization in our CSoC program
- **65% increase in community tenure** for children in the Children's Comprehensive Care Management program
- **100% compliance achieved with provider access** standards for all levels of care in urban and rural areas across all programs
- **Over 86% of members across programs reported positive overall satisfaction**

Commitment to high-quality healthcare

Magellan helps individuals and families achieve their goals. Our approach focuses on innovation, clinical excellence, and whole-person wellness, empowering individuals to discover strengths and build hope.

We partner with health plans, members, providers, advocacy organizations and other allies to transform the behavioral healthcare system and offer the best treatment options to support recovery, resilience and a healthier future.

“

Magellan has done more in the first three months than the other plan did in 10 years

”

- Pennsylvania
