

Join Magellan—Help Idahoans lead healthy, vibrant lives

As you may be aware, the Idaho Department of Health and Welfare (IDHW) has selected Magellan Healthcare as the state-wide administrator for the new Idaho Behavioral Health Plan (IBHP) to administer and also transform the state's behavioral health system of care.

Magellan will manage behavioral health services for the Divisions of Behavioral Health and Medicaid. Magellan also will manage the provider network for the Department of Juvenile Corrections. We will oversee behavioral health services for Idahoans who don't have health insurance as well as those who have Medicaid or other types of insurance.

Magellan
HEALTHCARE®

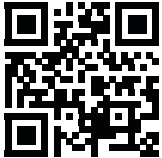

It's likely you care for individuals in Idaho programs already. Will you and/or your organization agree to participate as a Magellan provider to continue to care for these individuals since Magellan has been named as the IBHP vendor?

Providers who collaborate with us can expect to receive ongoing training and administrative support. What is more, our network providers' insights help shape our efforts to meet the complex needs of the members we serve.

RSVP

To indicate your commitment to serving individuals and their families in Idaho, we ask you to complete a letter of intent online at **Magellanofidaho.com** (estimated time to complete 5 – 7 minutes).
