

Magellan Healthcare

For over 50 years, Magellan has delivered solutions for healthcare's most complex, costly challenges. From innovative behavioral health (BH) and employee assistance programs to transformative children's BH services and military programs, we have a solution for you.

Behavioral Healthcare Management

Combining advanced clinical methods and cutting-edge technology, our robust whole-health approach has yielded remarkable results:* 24% and 41% reductions in depression and anxiety scores, 45% cost of care reduction using 5-star providers, and 70% improvement in children's clinical functioning.

Employers

eMbrace—Our suite of focused employee assistance solutions offers the optimal balance of high-tech, high-touch services, including a personalized plan driven by our proprietary Gallup® Wellbeing Survey.

Specialized solutions—With support for children, teens and caregivers, financial, legal and work-life balance, our comprehensive services meet employees' diverse wellbeing needs and challenges.

Health Plans

Advanced analytics, high-value utilization management, and ground-breaking technology and clinical programs help us provide the right treatment at the right time, improving outcomes and satisfaction.

Physical healthcare integration—Our Collaborative Care Management program, powered by NeuroFlow, empowers PCPs to proactively identify and address BH conditions with Magellan BH experts' support.

Digital Emotional Wellbeing—Members are equipped to take control of their whole health through evidence-based activities, including digital CBT.

DCBT—Endorsed by SAMHSA, our DCBTs improve access to BH services, address the most common BH conditions and decrease the need for higher levels of care.

Magellan Autism Connections®—Through comprehensive tailored support, children with autism and their families are empowered to thrive in their unique circumstances.

Government Agencies

Federal—With decades of government and military expertise and the latest health innovations, we offer a full spectrum of services—mental health, substance use, family support, health assessments, coaching, care management, administrative professionals and military/veteran benefits support.

State and local—Customized, collaborative BH management, and children's, and peer support and recovery and resiliency services, address the distinct needs of members and their families.
